

Declaration of Conformity

Dear HYDROSYSTEMS D.O.O.,

For malleable steel threaded pipe fittings, MEIDE GROUP hereby undertakes:

Our DIN standard malleable iron pipe fittings meet the following standards:

1. The product size conforms to BS EN 10242 standard.
2. Product material grade KTH350-10, conforms to BS EN 1562 standard.
3. Product thread conforms to ISO 7-1 standard.
4. The thickness of the hot dip galvanized zinc layer meets BS EN 10242 standard, the average coating thickness is at least 70 μ m, and the coating thickness of the single point is at least 63 μ m.
5. All pipe fittings shall comply with the maximum allowable working pressure and temperature range given in the table below. The normal operating temperature of pipe fittings is not lower than -20 $^{\circ}$ C.

5.1 Non-corrosive environment inside and outside the product; Keep dry during transportation and storage; Protection from rain and moisture; Place carefully when handling.

5.2 Transport medium: water, gas, air (non-corrosive medium, pay attention to anti-freezing at low temperature and the internal medium of the pipe fittings is not frozen).

Working Temperature, $^{\circ}$ C	Max. Pressure, Mpa
-20~120	2.5
120~300	2~2.5
300	2
